Kit List

Please pack all items in a duffel bag, dry sack or other large bag. Plastic totes are not recommended. Please do not pack belongings in garbage bags.

ELECTRONICS

We recognize that many youth use phones for as camera rather than a digital camera. However we strongly recommended leaving phones at home for a few reasons.

- This is a chance to disconnect and there will be little time to use them.
- They can be damaged or lost
- There is weak service which can run through data.

If youth still come to camp with a phone, they are responsible for it, not the guiders.
