

	Main A	Main B	Partition 1	Partition 2	Boardroom
Session 1	Badge Creation	SWAPs	Nature crafts		
Session 2		Guiding History	Event Planning	Zero Waste Science	Stoves
Session 3	CRAFTAPALOOZA	WOODWORK	Rangers	Ukulele Basics	Safe Guide refresher
Session 4			Fabric Crafts	More Ukulele	
Badge Creation	Ever wondered how crests are made? Join Elisha at the Badge Creation Station and learn about a possible process!				
CRAFTAPALOOZA	Come and discover Glass Mosaic Coasters OR Leather working OR Gumball machines with Elisha. You will be sent a form to identify your choices and various fees will be requested.				
SWAPs	SWAPs are small tokens of friendship that youth exchange at Guiding events, reflecting themselves, their unit, or a specific memory of the event. Rosie has more Outrageous SWAPs to share with you that are interactive and useful. **A separate fee of \$5 for supplies is requested.				
Guiding History	Bringing Guiding history to life for the youth can be challenging! This session with Rosie will explore a variety of interactive activities that can turn history into engaging and immersive experiences, helping youth to develop a deeper understanding and appreciation for the past.				
WOODWORK	Woodworking isn;t just about creating objects; it's about developing skills. In this session, participants will learn from Rosie how to measure, plan projects, and learn to execute them with youth in their units. Everyone will have the opportunity to create a wooden toy camera and a Save, Spend, and Share Bank. **A separate fee of \$10 for supplies is requested.				
Nature Crafts	This session is for you if you are looking for winter-appropriate crafts with free materials from nature! Join Andrea and explore the possibilities!				
Event Planning	Events of any scale are fun to plan and execute! Come join Wendy as she shares with you the framework she uses for event planning.				

Rangers	Rangers and Ranger Guiders, this session is for you! It is a mystery session being offered by Karla specifically for this branch level. If this piques your interest, register and find out what wisdom she is sharing!
Fabric Crafts	There are lots of craft activities out there and sometimes, it can be overwhelming to know where to start. Join Cara as she walks you through achievable fabric crafts that you can introduce to youth of all branches.
Zero Waste Science	Some of our youth do love science but it can sometimes get messy and wasteful. Nathalie will share with you some zero-waste or low-waste science lab activities that will wow your youth!
Ukulele Basics	Peggy will be sharing her love for the ukulele with this introductory session. Music sheets will be shared to you before the event to ensure you can print it out in a timely manner. Peggy has a small quantity of instruments that she will be happy to loan to you for the small fee of \$5.
More Ukulele	Peggy will continue to dive deeper into ukulele playing. Participants must already be able to play the C, G7, and F chords at a minimum. Music sheets will be provided to you before the event to ensure you can print it out in a timely manner. Peggy has a small quantity of instruments that she will be happy to loan to you for the small fee of \$5.
Stoves	Stoves can be quite intriguing as there are different types out there. Discover the pros and cons of the ones out there (and maybe some old timey-wimey ones too) and their different applications with Margaret. This session will include discovering stoves outside the building in the sheltered portico.
Safe Guide Refresher	Join Margaret on a fast-paced refresher of the new Safe Guide 2025 including a reminder of the basics and highlights of the new additions/changes.
