

Lego Kits

Information for leaders

1

Each box contains enough bricks for two groups of two youth each (three if needed)

- Please try to ensure that the bricks from different boxes don't get mixed up by spacing the boxes around your meeting location.
- Please try to ensure that all bricks and instruction books make it back into the boxes.

2

We've included one worksheet with two activities for each of your youth - you can use this as an opening activity, a quiet activity, or something to do if youth finish early.

3

We recommend picking one group "challenge" that you have the whole unit complete, and then allowing free time for them to build freely (or try out the other activities in the book).

- Before your meeting, take a few moments to preview the different builds and select which makes the most sense for your unit.
- For **Sparks** we recommend the puppy obstacle course as there are no specific instructions

4

Make sure to return your kits promptly!

Once your meeting is over, complete the evaluation form using the QR code to receive your FREE crests!
